

Yerik International: ready for the November show.

A 30-day plan for your website and online presence.

30
days

You asked for a website that shows Yerik as it is today.

1 Capacity is full. Not looking for new buyers.

2 Website is 10 years old. The plant has grown since.

3 Current information and a cleaner LinkedIn.

4 Live before the November show.

This plan does exactly that. No ads. No marketing push.

This is what a buyer sees first.

- 1 Design dates from 2015–16.
- 2 No line that says what Yerik makes.
- 3 Old logos.
- 4 The phone number does not connect.

A buyer who tries to reach you hits four dead ends.

1

Screenshot needed

03_phone_number: Tight crop of the phone number

The phone number does not connect.

2

*Enquiry sent through the website on
[[CONFIRM: date, about 10 days before the
call]]. No reply by the call date.*

3

Screenshot needed

04_product_page: Product page with the “tweet” label

Product pages: no details, and a stray “tweet” label.

4

Screenshot needed

05_careers_form: Careers form filled (Test / abc / blank phone), not submitted

Careers form takes a wrong email and blank phone.

Most people open your site on a phone.

Screenshot needed

02_home_mobile:
Homepage on a phone,
390×844, first 2 screens

On a phone, it looks weaker than on desktop. **[[CONFIRM: describe what the capture shows, e.g. small text, broken layout]]**

1

[[CONFIRM: issue seen on capture]]

2

[[CONFIRM: issue seen on capture]]

Google and LinkedIn tell a mixed story.

1

Screenshot needed

08_google_profile: Google profile with unrelated photos (manual)

Google profile: photos that are not your plant or products. Some videos lower trust.

2

Screenshot needed

09_linkedin_pages: Both LinkedIn pages named Yerik International (manual)

Two pages carry the Yerik International name. Which is official?

3

Screenshot needed

10_hiring_post: One off-brand hiring post (manual, blur people)

Hiring posts miss Yerik's orange and font. A fake would look the same.

Other Ludhiana sites say who they are in the first line.

JRS Farm Parts

“ISO-certified tractor parts supplier in Ludhiana, exporting to USA.”

Machine Parts

A clear tagline and a working WhatsApp chat button.

Yerik International

No headline. The visitor has to work it out.

Your show costs at least ₹4–5 lakh. The follow-up happens on your website.

₹4–5 lakh

minimum cost of one show

After the show, people look you up.
Today, the website does not match
the company they met at your stall.

The plan: 4 pieces of work in 30 days.

A

Brand consistency fix

One logo set, one orange, one font, used everywhere.

B

New 5-page website

Built for phone first. Existing product pages move across.

C

Google profile fix

Correct details and real photos of your plant and products.

D

Hosting move support

Secure hosting. Same domain name.

OPTIONAL

E

LinkedIn clean-up

One official page. Hiring posts in Yerik's colours.

F

Photo shoot at Doraha

One day. Only if current photos are not available.

Not in this plan: ads, paid promotion, finding new buyers, a new logo, other group companies, monthly management.

Your website today, and after 30 days.

TODAY

yerikindia.com • local server, Ludhiana

Home

No headline, old logos

123

Infrastructure

Shows the plant as it was in 2015-16

Products

10-13 ranges [[CONFIRM: count]]. No product details

4

Careers

Form does not check any field

5

Contact

Phone does not connect. Enquiry not answered

36

- 1

No headline
- 2

Old logos
- 3

Phone does not connect
- 4

No product details, “tweet” label
- 5

Form takes wrong entries
- 6

Enquiry not answered

AFTER 30 DAYS

yerikindia.com • secure hosting, same domain

Home

One-line headline, key numbers, product range, November show

About Us

Since 1991, new infrastructure, quality, markets

Products

One card per range. Existing pages move across, old links work

Careers

Open roles. Every form field checked

Contact Us

Working phone, WhatsApp, enquiries to a named person

Every page: same menu, footer with address and links, built for phone first.

Each page has one clear job.

Home	About Us	Products	Careers	Contact Us
• One line: what Yerik makes, since 1991 • Key numbers [[CONFIRM]] • Product range and new plant • Your November show, stall number	• The story since 1991 • Infrastructure and new machines • Quality and certifications [[CONFIRM]] • Markets served [[CONFIRM]]	• One card per product range • Each card opens the existing page • Old links keep working	• Why work at Yerik • Open roles • Form with every field checked	• One phone number that works • WhatsApp button • Enquiries go to a named person • Plant address and map

The new homepage says what Yerik makes in one line.

- 1 Headline says what Yerik makes, from where, since when.
- 2 The November show sits on the first screen.
- 3 Product ranges are one tap away.
- 4 A WhatsApp button that works.

Rough layout to show structure. Final design agreed with your team.

Two fixes make Yerik look the same everywhere.

A. Brand consistency fix

- Pick one clean logo version: colour, white and black files.
- Fix the exact Yerik orange and one font.
- A one-page brand sheet.
- 2 post templates: hiring and announcement.
- An email signature.

This is not a new logo or a new brand identity. It makes what you already have look the same everywhere.

C. Google profile fix

- Correct phone, hours, address pin, categories and description.
- Add real plant and product photos.
- Report unrelated photos uploaded by others. Owners can report these, not delete them.
- Link to the new website.
- One post about the November show.

What changes by launch day.

What	Today	At launch
First impression (our audit score)	2/10	8+/10 [[CONFIRM]]
Clear message (our audit score)	1.5/10	8+/10 [[CONFIRM]]
Phone number on website	Does not connect	Connects, with a named person
Website enquiries	No reply after about 10 days	Reach a named person. Yerik replies within 1 working day
Careers and enquiry forms	Accept blank and wrong entries	Every field checked. Spam blocked
Homepage headline	None	One line: what Yerik makes, for whom, since 1991
Product pages	No details. Stray “tweet” label	Clear range on new Products page. Label removed
On a phone	Weaker than desktop	Checked on phone before launch
Hosting	Local server in Ludhiana	Secure hosting, same domain
Google profile	Unrelated photos and videos	Correct details, real plant and product photos
LinkedIn (if E is chosen)	Two pages, same name. Off-brand posts	One official page. Posts in Yerik's colours
Launch	Not live	Live before the November show

30 days, week by week.

Week	Giraffe does	Yerik gives
Week 1 (Days 1–7)	Kick-off call. Lock brand sheet. Agree hosting and domain plan with Yerik IT. Write page text.	Coordinator name, IT contact, logo files, photos, product list
Week 2 (Days 8–14)	Design all 5 pages for desktop and phone. Start the Google profile fix.	One round of combined feedback
Week 3 (Days 15–21)	Build the site on new hosting (preview link). Move old product pages. Set up forms and WhatsApp.	Final text approval
Week 4 (Days 22–30)	Test on phone and desktop. Point the domain. Go live. Update the Google profile link. Handover: who owns the phone, who answers enquiries.	Final sign-off

Option E runs alongside in weeks 1 to 3.

To be live before the show, we need the go-ahead by **[[CONFIRM: show date minus 35 days]]**.

What we need from Yerik to hold the date.

1	Content coordinator name and phone	Day 2	6	Certifications, markets served and key numbers you are happy to show publicly	Day 5
2	IT contact for hosting and domain, and cooperation from the current Ludhiana host	Day 2	7	One phone number with an owner, one email on Yerik's domain, one person who replies to enquiries	Day 7
3	Best-quality logo files	Day 3	8	Show name, dates and stall number	Day 7
4	Photos of the plant, new machines and products, or choose option F	Day 5	9	Feedback within 2 working days at each step, so the date holds	Each step
5	Product range list, plus the top [[CONFIRM: number]] priority products	Day 5	10	Final sign-off before launch	Day 28

Investment: A to D is the core. E and F are your choice.

A to D work together. E and F you can add or skip.

Item	What you get	Price (₹)
A. Brand consistency fix	One logo set, colours, font, brand sheet, 2 post templates, email signature	[[PRICE]]
B. New 5-page website	Home, About Us, Products, Careers, Contact Us. Includes moving existing product pages	[[PRICE]]
C. Google profile fix	Correct details, real photos, link to new website, one show post	[[PRICE]]
D. Hosting move support	Work with Yerik IT to move to secure hosting, same domain	[[PRICE]]
Phase 1 total (A to D)		[[PRICE]]
Optional E. LinkedIn clean-up	One official page fixed, hiring post templates, profile audit form	[[PRICE]]
Optional F. Photo shoot at the Doraha plant	One day: plant, new machines and products	[[PRICE]]

- Prices exclude GST.
- Hosting, domain and email renewals are paid by Yerik directly to the provider **[[CONFIRM]]**.
- Payment: **[[CONFIRM: e.g. 50% to start, 50% at launch]]**.
- Includes **[[CONFIRM: 2]]** rounds of changes.
- Quote valid for 30 days.

Phase 2, priced later: rebuild product pages one by one with full details.

Who we are, and what happens next.

Giraffe Partners works with manufacturing and industrial businesses.

50+ manufacturing and industrial brands **[[CONFIRM]]**.

Offices in Delhi, Chandigarh, Dehradun and Abohar.

“We work with businesses that are better than they look.”

Neev Seeds (agri)

Over 3 years: new packaging, logo and trademark, website, distributor forms, and one consistent look at every expo.

Neev Seeds before / after images
(optional)

NEXT STEPS

- 1 Yerik IT confirms domain and hosting
- 2 Management approval
- 3 Go-ahead by **[[CONFIRM: date]]**
- 4 Kick-off call within 2 days

Disha Arora

[[CONFIRM: Disha phone]] · **[[CONFIRM: Disha email]]**
